EDUCATION

JMIT Radaur

Btech. Computer Science - **CGPA - 7.80**

2023 – Current

Yamunanagar, Haryana

SKILLS

Languages: C++, JavaScript, Java, Python

Technologies: React JS, Node JS, Docker, Git, HTML, CSS

Databases: MYSQL

Other: WebSockets, AI-Integration, WebRTC, REST APIs, TailwindCSS, Encryption

PROJECTS

Real-Time Collaborative Code Editor

March 2026 - May 2026

Tech Stack: React.js, Node.js, Socket.IO, Docker, WebRTC, MongoDB

- Built a cloud-based collaborative IDE featuring live file tree, terminal, and code editor with real-time synchronization.
- Developed a WebSocket backend with 30+ endpoints for real-time file I/O operations and container management.
- Designed a responsive UI with integrated code editor and terminal, emulating 80%+ of core IDE functionality.
- Achieved <100ms latency using WebRTC and Redis Pub/Sub for instant collaboration across multiple users.

Edusity - React-based Educational Website

January 2026 - February 2026

Tech Stack: React.js, HTML, CSS, JavaScript

- An interactive and responsive UI design for an educational institution with real-time contact functionality. Tech- nologies.
- Built reusable React components to create a clean and interactive user interface .

Draw Buddy

November 2025 - December 2025

Tech Stack: TypeScript, Node.js, WebSockets, Tailwind CSS

- Developed Draw Buddy, a feature-rich, real-time drawing platform leveraging TypeScript, Socket.IO, Tailwind CSS.
- Engineered advanced features—including zoom, shape resizing, infinite canvas and undo-redo to boost real-time responsiveness and enhance user interactivity.
- Serialization and deserialization of shape details for peer transfers using socket.io.

ACHIEVEMENTS

- Successfully solved over **300** DSA problems on platforms such as GFG and LeetCode, demonstrating problem solving.
- Collaborated with a IIT Roorkee in Campus Ambassador Programme resulted in increase of 30 percent participation in Cognizance annual fest of IIT Roorkee..

COURSEWORK

Data Structures Algorithms · Operating Systems · OOP · DBMS · Computer Networks · Automata · Linux · Computer Architecture · Discrete Mathematics · Compiler Design · Design and Analysis of Algorithms

CERTIFICATIONS

- ENSINO Research and Development Pvt. Ltd. Machine Learning Using Python
- ENSINO Research and Development Pvt. Ltd. Mern Stack and Development
